SPOOKY SEASON APPROACHES AT THE PARK

Halloween fundraisers return to Carousel Gardens Amusement Park

NEW ORLEANS – It’s going to be a spook-tacular fall at New Orleans City Park.

Halloween fundraisers are back at Carousel Gardens Amusement Park and preparations are underway for the best October ever.

“Seeing the amusement park decorated for Halloween not only gives our Park guests great joy, but our City Park team members as well – the excitement is palpable,” said Waymon Morris, Director of Recreational Services. “We’ve got some great treats, and tricks, in store for guests this season, and we cannot wait to share with them.”

Ghosts in the Oaks (October 20-23) features four nights of trick-or-treating, rides, arts & crafts, pumpkin patch and treats for all ages. **Brews and Boos** (October 28-29) features adults-only access to the amusement park and a GHASTLY amount of beer for guys and ghouls 21+.

Admission to each event comes with unlimited amusement-park rides and special themed giveaways.

Funds raised at each event go directly toward the day-to-day care for the Park's 1,300 acres. Tickets for both events are on sale **now**. All tickets will be sold online and in advance. For more information, visit NewOrleansCityPark.com.

About New Orleans City Park:

For over 170 years, New Orleans City Park has provided access to abundant natural and cultural resources to residents of the region and visitors from around the world. The Park's 1,300 acres make it one of the largest urban parks in the United States. City Park is a popular place to fish on the bayou, picnic, experience safe outdoor play, or engage in athletic pursuits—as evidenced by more than 16 million visits each year. City Park's annual operating budget has been largely derived from self-generated activities. The COVID-19 pandemic and Hurricane Ida, which significantly affected revenue-generating facilities due to restriction closures, highlighted the vital importance of diversifying revenue streams. Through these challenges, the Park's walking trails, urban forest, and open spaces continue to be a respite to the public.
